

NEW

**PURE WHITE, ACC. TO RAL 9010** to ensure a consistent look, in line with the mini and cable trunkings in pure white

**SPLIT DESIGN** in the lower flange, which allows for retrofitting once cables have already been laid

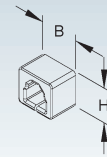

**SILICONE-FREE VERSION** making it suitable for use in the automotive industry

**DESIGN** - the lower flange is designed to allow installation where trunkings are already mounted on walls

**MATERIAL** made from polypropylene (PP), halogen-free

## Edge Protection Ring
